ECAC Working Group Meetings on Facilitation of Air Transport for Persons with Reduced Mobility (PRM), hosted in Chișinău

Between 14–16 April 2026, the Civil Aeronautical Authority of the Republic of Moldova hosted, in Chi?in?u, the meetings of the working group within the framework of the European Civil Aviation Conference (ECAC), dedicated to facilitating the transport of persons with reduced mobility: FAL-PRM-EXPERTS/7 and FAL-PRM-SG/77.

The organization of these meetings in Chișinău reconfirms the importance of international cooperation in promoting more accessible, more inclusive air transport, better adapted to the needs of all passengers. The working group meetings provide a valuable platform for professional dialogue and exchange of experience. In this context, participants addressed current and relevant topics in the field of air transport facilitation, including operational developments regarding assistance provided to PRM, recent ECAC activities, the update of ECAC Doc 30, as well as the revision of certain assessment tools used in monitoring the assistance provided to these passengers at airports and by air operators.

The CAA pays constant attention to the development of air transport facilitation and actively supports initiatives aimed at improving accessibility and travel conditions for persons with reduced mobility. Hosting this event reflects the openness of the Republic of Moldova to institutional cooperation, exchange of expertise, and continuous alignment with international standards and practices.
