

Flight punctuality during the period April 7-13

On April 7-13, 2025, Chisinau International Airport registered a significant improvement in flight punctuality. Of the 344 scheduled landings, 74.4% were performed on time, while 81.4% of the 339 take-offs complied with the set schedule. Current performance reflects the continuous efforts of the authorities and air operators to improve operational efficiency and to provide passengers a more predictable and comfortable travel experience.
